RE: Roy Hernandez  
ACI-Century, Inc.

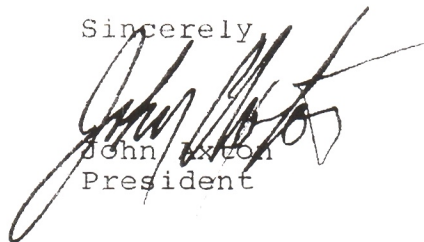

Dear Ms. Walker:

I am pleased to inform you that our firm's experience with Roy Hernandez has been very satisfying since 1977. Mr. Hernandez and several of his superintendents have attended our training sessions consistently for the past 7 years.

In our factory training sessions, they have learned to professionally install epoxy stone, seamless flooring, waterproof coatings, sprayed in place urethane foam roof, deck coatings, etc.

Mr. Hernandez has personally given us so much input with his vast experience that we changed the name of our product line from Advanced Coatings to ACI-Systems. This occurred about 5 years ago. His expertise in the flooring and waterproofing field is unsurpassed and we certainly recommend him to you as a consultant or installer.

Sincerely

John Linton  
President
