Stuart, Florida 34994

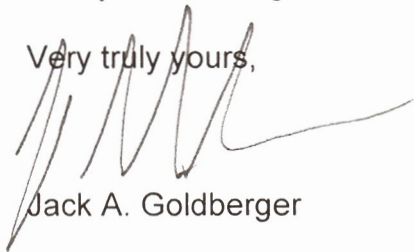

Dear Roy,

I cannot tell you how pleased my wife Connie and I are with the re-roofing job that you did on our house in Palm Beach Gardens. When it came time to replace the original roof on our home, we solicited bids from several roofing companies. Quite frankly I was not comfortable with any of the roofing companies that bid on our home until I met you. You came to our home, spent the time to explain different roofing products and installation techniques to us, and answered all of our questions.

Ultimately, we decided to use ACI Century for the roofing job. You handled the permitting process professionally, gave us a time frame as to when the roof would be installed, and you stuck to that schedule like clockwork. The end result has been a perfectly installed roof that has given us no problems.

I appreciate your professionalism and would enthusiastically recommend your company to anyone seeking roof installation.

Very truly yours,

Jack A. Goldberger
