Pompano Beach, Fl. 33060

Dear Mr. Hernandez:

Your crews have done a wonderful job on the hospital. This is the first year that our hospital has ever been waterproofed. We no longer have leaking walls and ceilings, no more plaster falling off, or musty odors. We are very happy with the calking job and the waterproofing of the exterior precast panels. Our new paint job is clean and crisp, and our new roof is excellent.

We are certainly glad that we were able to work with a contractor that could fulfill all our needs thereby giving us a single source guarantee. Your superintendent did an excellent job of coordinating such a huge project with so many facets of work. I would strongly recommend your company should you ever need an endorsement.

Sincerely,

BENNETT COMMUNITY HOSPITAL

Ron Willemsen  
Director of Physical Plant
