Attn: Mr. Roy Hernandez
ACI - Century
1551 NE Cardinal Ave
Stuart, FL 34994

Dear Mr. Hernandez,

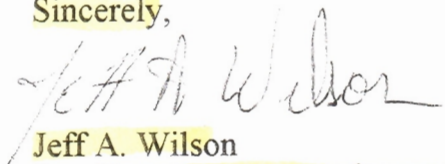

Please accept this letter of thanks for the many years of service you have performed for Executive Park Enterprises and GWW Development, Inc. ACI - Century Inc. has waterproofed and roofed our office buildings in a very professional manner.

During the bidding process ACI has always been straight forward, listened to our needs, made recommendations and completed the work in an expert and very timely manner.

Our new Stone Coated Steel Tile roofs are very elegant. We have had many positive comments from the surrounding community. These roofs were installed prior to Hurricane Wilma which, as you know, had a great impact on the city of Jupiter. We survived unscathed.

Our previous cement tile roofs took a severe beating during Hurricanes Frances and Jeanne. But the new Stone Coated Decra Steel Tile proved to be the answer for Hurricane Wilma. "WOW", what a relief! Thank you from all of our clients in the Professional offices at 900 and 902 US Hwy 1. It is hoped that your clients will feel free to call us for recommendations at 561-744-7200.

Sincerely,

Jeff A. Wilson
President, GWW Development, Inc.
