Subject: Your personnel.

Dear Sir:

I trust you can spare a moment from your busy day to accept a sincere compliment from many of the homeowners who have had the pleasure of experiencing your personnel at work. Both my neighbor and I watched them for a time as they complete the, I guess the first phase, at our homes.

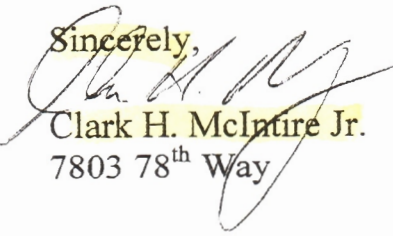

Digressing for a moment; your crews remind me somewhat of working years back in "Special-OPS". Although our tasks were somewhat different, to say the least, bottom line is commencement to completion would run side by side. Planning, supply delivery, scheduling, tasks performed, sanitize the area and vanish. Would you agree?

In conclusion I sincerely believe it's my parents, faith, education, Masonic teachings etc., which lead me to believe, without sounding facetious, your personnel are a definite ASSET to your Company.

We/I, as do the other aforementioned homeowners, extend a sincere THANK YOU for the Professional tasks you have performed to date. In turn I trust you will also THANK your personnel.

I have always found people are quick to criticize but never to praise. My neighbor and I do not fall in that category.

Sincerely,

  
Clark H. McIntire Jr.
