Stuart, FL 34994

Dear Roy,

I thought that you should know how grateful we at the Lakes of the Bluffs are. Several years ago we were in negotiations with ACI to replace our mansards with Stone Coated Steel shake and it was the weeks before Frances and Jean Hurricanes hit. Rivers North **(80) Quadplexes** across the street **survived unscathed**. They were fortunate because ACI had just finished the installation of the Mansard Stone Coated Steel Panels and there was no damage. We accelerated our project time frame after that. Your courtesy and professionalism was greatly appreciated. Now that Hurricane Wilma was another direct hit in Jupiter by the Ocean we too our safe at our (98 buildings). Our buildings are beautiful and thoroughly tested. You guys are marvelous and we will recommend ACI always.

Also our Flat roofs you installed (12) years ago are in great shape.

Many Thanks

All of The Board of Directors
