

**VILLAGE OF SANDALWOOD LAKES  
HOMEOWNERS ASSOCIATION, INC.**

September 28, 2007

To Whom It May Concern:

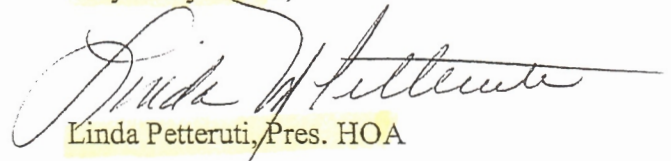

ACI-Century, Inc. was one of (5) five contractors that were asked to bid our Mansard Renovation Project. Only qualified bidders were invited to submit bids.

After careful analysis and consultations with our selected engineer of record, the Sandalwood Lakes Homeowners Association Board of Directors contracted with ACI-Century, Inc. We selected ACI-Century, Inc. because this was a huge undertaking (222 Buildings). They had the past experience (43) years, the man power and the resources to get the job done, plus they came highly recommended to us by the manufacturer. This was to be a 5 year project. We, however, were only into our first year, when Hurricane Frances and Hurricane Jeanne made a direct hit on our complex.

At our request ACI-Century, Inc. responded immediately and helped secure the remaining 175 buildings that were not started yet due to our scheduling. We asked ACI-Century, Inc. to fast track the remaining 175 buildings for complete renovation. One (1) year later the entire project was completed, several years ahead of schedule.

The expertise, workmanship and professional demeanor of ACI-Century's entire organization was unbelievable. They are "Real Pros" and that is why I as president of the HOA for the past 15 years enthusiastically recommend them to you. I believe you too will find them to be an excellent choice for your project.

Very Truly Yours,

Linda Petteruti, Pres. HOA
